

AKADEMIET FOR TALENTFULDE UNGE

DIPLOMA

This appendix is only valid together with a signed Danish diploma.

The Academy for Talented Youth is an academic talent programme for secondary school students. The students are all characterised by a desire and motivation to learn more and expand their academic horizon in unison with other knowledge enthusiasts.

The students are enrolled in the talent programme through collaboration between The Academy for Talented Youth and the participating secondary schools. Enrolment requires academic curiosity, capability and commitment.

The talent programme consists of 16-20 seminars, a summer camp and a vast number of voluntary activities. The Academy for Talented Youth organises the teaching of the talent programme in close cooperation with Danish institutions of higher education and leading regional and national companies. The talent programme is thus characterised by academic breadth, immersion and challenges.

The Diploma is given to students who have satisfactorily completed the talent programme.
